SAVE WATER

On 03-03-2022, a Special program Save Water is organised by the NSS unit at kuppanapudi panchayat. Mr J. Suresh Garu is described the conservation of water is a necessity to save life. All living organisms on this planet need water to survive. If we do not give importance to saving or conservation of water then our future generations will face water scarcity. Don't let your water consumption run out of control. Save 6 litres of water a minute by turning off your tap while you brush your teeth. Fix leaky taps too – and stop what could be 60 litres of water going straight down the drain every week. Every minute you spend in a power shower uses up to 17 litres of water.
