BROCHURE

KEY POINTS

- > Analyse critical logical information
- > Think of all the possible solutions
- > Read and understand the information carefully
- > Compare the answers obtained with other possibilities
- > Come to a correct logical conclusion
- > Read & understand the question first before answering
- > Know about BODMAS (brackets, Order, Divide, Multiply, Add, Subtract) & workout problems implementing the rule.
- > Use common sense to solve questions that are real life oriented (like distance, age time)
- > Calculators are not permitted inside the exam hall. Hence learn shortcut methods or formulas to solve a question quickly.
- > Time Management is essential while attending mathematical problems. So try out some mock tests with the same number of questions while preparing.
- > Practice as many model papers & previous year question papers with a clock - because time management is essential for mathematical problems.

CONDUCTED BY

DEPARTMENT OF MATHEMATICS

COLLEGE PROFILE

Dr. Cheeday Satyanarayana a Paediatrician who served and saved lacks of sick children in West Godavari, East godavari and Krishna Districts for over four decades, developed interest in promotion of education and got a society registered and promoted "Peoples' Educational Society" in the year 1991. With his contacts in this areas 450 Elite have joined as members of the general body. In the year 1992 Dr. C.S.N. Junior College and Dr. C.S. N. English Medium School were started at rest house road in the campus of Dr. Cheeday Satyanarayana. In the year 1994 Dr. C.S.N. Degree College was started in the same premises. The College grew strength to strength, year after year and won the appreciation of the public and students.

In the year 2000 the college was upgraded as Post Graduate College and named as Dr. C.S.N. Degree & P.G. College, in succession M.Sc. Computer Science, Microbiology, Biochemistry, Biotechnology, Electronics, Physics, Organic Chemistry, Analytical Chemistry, M.A. English, M.A. Social Work, M.C.A., M.B.A., B.Pharmacy and D.Ed., were started.

Land was acquired near Industrial Estate which was earmarked for college propose in Municipal Master Plan and Buildings were constructed, consisting of 3 buildings with 3 blocks. Presently the college is functioning with strength of 800 degree and 500 PG students on rolls.

NUMERICAL ABILITY & REASONING OBJECTIVES

The main objectives of this course are:

Introductory knowledge of processes modeling

1.Setting the adequate physical properties

2.General flow sheet

3.Basic flow sheet

4.Common unit operations

5.Minimum requirement to set up and run a simulation

6.Analyze several changes in process conditions

7. Create an interest in process modeling

LEARNING OUTCOMES

Clarify your expectations for students

Out comes provide a great opportunity for students to understand what your course is about, what learning goal are, and what will be expect of them to demonstrate that learning.

Re evaluate your teaching strategies

Using your outcomes as your outline for your course, you can re evaluate your materials and approaches and decide how well they work for you and your students.

Reassess your assessments

As you write your course outcomes, you may decide that there are different assessments that are better suited for evaluating some your decided you have been using quiz when a presentation would be better fit.

Provide clear consistent feedback

Another that outcomes can help you is with your feedback your outcomes can help you explain the key areas of an assessment or help highlight exactly how a student might be struggling.

Open your grading to student suggestions

If students understand what they must achieve or demonstrate in a course, you can give students a chance to pitch their own project or assessment. If you have been wanting to include students in the assessment of the course, using learning outcomes can provide that opportunity

Learning outcomes:

Clarify your expectations for students

Out comes provide a great opportunity for students to understand what your course is about, what learning goal are, and what will be expect of them to demonstrate that learning.

Re evaluate your teaching strategies

Using your outcomes as your outline for your course, you can re evaluate your materials and approaches and decide how well they work for you and your students.

Reassess your assessments

As you write your course outcomes, you may decide that there are different assessments that are better suited for evaluating some your decided you have been using quiz when a presentation would be better fit.

Provide clear consistent feedback

Another that outcomes can help you is with your feedback your outcomes can help you explain the key areas of an assessment or help highlight exactly how a student might be struggling.

Open your grading to student suggestions

If students understand what they must achieve or demonstrate in a course, you can give students a chance to pitch their own project or assessment. If you have been wanting to include students in the assessment of the course, using learning outcomes can provide that opportunity.

BROCHURE

KEY POINTS

- > Diagnostics medical microbiology course focusses on medical aspects of bacterial pathogens, cultural, biochemical, serological and other unique characteristics that might aid in the process of identification of these pathogens.
- > The course addresses the basic medical bacterial groups in detail.
- > Determine the modes of transmission of infectious diseases and pathogenesis.
- > Describe basic principles of diagnosis, antimicrobial treatment, prevention and control of infectious diseases in the hospital and community.
- > Understand interpret basic laboratory tests for the diagnosis of infectious diseases.
- > Apply the principles of molecular and immunological techniques for the diagnosis of infectious diseases.
- > Analyze and solve case studies involving bacterial and fungal agents.

DIAGNOSTIC METHODS IN MICROBIOLOGY

CONDUCTED BY

DEPARTMENT OF LIFE SCIENCE

COLLEGE PROFILE

Dr. Cheeday Satyanraayana a Paediatrician who served and saved lacks of sick children in West Godavari, East godavari and Krishna Districts for over four decades, developed intrest in promotion of education and got a society registered and promoted "Peoples' Educational Society" in the year 1991. With his contacts in this areas 450 Elite have joined as members of the general body. In the year 1992 Dr. C.S.N. Junior College and Dr. C.S. N. English Medium School were started ast rest house road in the campus of Dr. Cheeday Satyanrayana. In the year 1994 Dr. C.S.N. Degree College was started in the same premises. The College gew strength to strength, year after year and won the apprieciation of the public and students.

In the year 2000 the college was upgraded as Post Graduate College and named as Dr. C.S.N. Degree & P.G. College, in succession M.Sc., Computer Science, Microbiology, Biochemistry, Biotechnology, Electronics, Physics, Organic Chemistry, Analytical Chemistry, M.A., English, M.A. Social Work, M.C.A., M.B.A., B.Pharmacy and D.Ed., were started.

Land was acquired near Industrail Estate which was earmarked for college propose in Municipal Master Plan and Buildings were constructed, consisting of 3 buildings with 3 blocks. Presently the college is functioning with strength of 800 degree and 500 PG students on rolls.

DIAGNOSTIC METHODS IN MICROBIOLOGY OBJECTIVES

The main objectives of this course are

This course is designed to provide complete Knowledge of" DIAGNOSTIC METHODS" students will be able to develop identify the basic diagnostic techniques and procedures performed in a clinical laboratory

LEARNING OUTCOMES

After completion of the course, the students will be able to develop demonstrate competency in investigating ,evaluating ,interpreting molecular diagnostic cases. Understand the scientific bases of molecular diagnostic, which includes an understanding of basic molecular biology

UNIT -1

06 Hours

WHAT IS DIAGNOSIS; Importance of diagnosis, Diagnostic test Characteristics of diagnosis, Construction of diagnostic test.

UNIT -2

06 Hours

DINOSTIC PATHOLOGY LAB; The common diagnostic test X-rays, CT-SCAN, MRI ,Mammogram , Ultra sound ,PET- Scan ,pathology tests.

UNIT -3

06 Hours

DIAGNOSTIC ASSESSMENT; Definition, Types ,Examples, Diagnostic ,Formative, and Summative assessment. Examples of diagnostic assessment. Limitations and disadvantages of Diagnostic assessment.

UNIT-4

06 Hours

IMPORTANT CONSIDERATION IN THE DIGNOSTIC PROCESS; Diagnostic Uncertainty ,time, Population trends, diverse population and Health disparities ,Mental Health.

UNIT -5

06 Hours

IMPROVING DIAGNOSIS IN HEALTH CARE; The diagnosis process, Clinical history, Physical exam, diagnostic testing ,medical imaging, referral consultation.

ASSESSMENT PROCEDURE

CERTIFICATE COURSE ON DIAGNOSTIC METHODS IN MICROBIOLOGY

Assessment procedure is adapted to assess the students and their performance by the following methods and ultimately certificates are issued based on their overall performance in the final examination. Assessment is done as per the scheme of distribution of marks. For each paper 50 marks are allotted that includes attendance, assignment, lab activities internal marks, viva voice and final examination as per the following.

S.NO	NAME OF ACTIVITIES	MARKS ALLOTTED
1	Attendance	10
2	Lab activities / Seminars / assignments	5
3	Viva - Voice	5
4	Final Examinations	30

1. what is diagnosis?
2. How to diagnostic the different fractures?
3. Disadvantages of diagnostic Assessment?
4. Ultra sound?
5. Importance and considerations in the diagnostic process?
6. Explain Health disparities and mental Health?
7. MRI?
8. Examples of diagnostic Assessment?
9. Diagnosis in Health care?
10. Medical imaging?

SECTION -B

2) ANSWER ANY FOUR OF THE FOLLOWING;

4 X 5 =20

1. Discuss in detail examination of diagnostic tests?
2. Add a note on chest X-ray features in lung diseases?
3. What are the limitations of diagnostic assessment?
4. Write a note on formative and summative assessment?
5. Importance of diagnostic process in clinical History?

COLLEGE PROFILE

Dr. Cheeday Satyanraayana a Paediatrician who served and saved lacks of sick children in West Godavari, East godavari and Krishna Districts for over four decades, developed interest in promotion of education and got a society registered and promoted "Peoples' Educational Society" in the year 1991. With his contacts in this areas 450 Elite have joined as members of the general body. In the year 1992 Dr. C.S.N. Junior College and Dr. C.S.N. English Medium School were started at rest house road in the campus of Dr. Cheeday Satyanraayana. In the year 1994 Dr. C.S.N. Degree College was started in the same premises. The College grew strength to strength, year after year and won the appreciation of the public and students.

In the year 2000 the college was upgraded as Post Graduate College and named as Dr. C.S.N. Degree & P.G. College. In succession M.Sc., Computer Science, Microbiology, Biochemistry, Biotechnology, Electronics, Physics, Organic Chemistry, Analytical Chemistry, M.A., English, M.A. Social Work, M.C.A., M.B.A., B.Pharmacy and D.Ed., were started.

Land was acquired near Industrail Estate which was earmarked for college propose in Municipal Master Plan and Buildings were constructed, consisting of 3 buildings with 3 blocks. Presently the college is functioning with strength of 800 degree and 500 PG students on rolls.

C- Language OBJECTIVES

The main objectives of this course are:

This course designed to provide complete knowledge of 'C' language. Students will be able to develop logics which will help them to create programs, applications in 'C'. Also by learning the basic programming constructs they can easily switch over to any other programming language in future.

LEARNING OUTCOMES

- > After completion of this course, the students will be able to develop their own applications.
- > Students will demonstrate basic knowledge in fundamentals of programming, Algorithms and programming technologies and fundamentals of computer science.

COURSE OBJECTIVES:

This course designed to provide complete knowledge of 'C' language. Students will be able to develop logics which will help them to create programs, applications in 'C'. Also by learning the basic programming constructs they can easily switch over to any other programming language in future.

LEARNING OUTCOMES:

- After completion of this course, the students will be able to develop their own applications.
- Students will demonstrate basic knowledge in fundamentals of programming, Algorithms and programming technologies and fundamentals of computer science.

COURSE CONTENT:

UNIT – I

Block diagram of a computer -Introduction of programming languages-Algorithm-key features of algorithm-examples-Flowcharts-symbols-examples-structured programming language.

UNIT – II

Introduction to 'C': features-structure of C-writing first 'C' program-variables-identifiers-constants-keywords-data types-I/O statements-Operators-Programming examples.

Control structures: Decision control statements-Branching statements-simple-if, if-else, else-if ladder, Nested-if, switch case-Iterative statements- while, do-while, for –Nested loops- Jumping statements- break, continue, goto, return – example programs.

UNIT – III

Arrays: introduction-declaration- accessing elements of the arrays – types of arrays – array operations- searching and sorting – programs on arrays.

Strings: introduction – declaration- string handling functions.

UNIT – IV

Functions: Introduction-usage-function declaration-function definition-function call-return statement-passing parameters-Recursive function-scope of variables-storage classes.

Structures and Unions: Structure creation-declaration-types of structures-Array of structures-Union creation-declaration-Array of unions-Enumerated datatypes.

UNIT – V

Pointers: Introduction to pointers-declaring pointer variables-pointer expressions-pointer arithmetic-null pointers-pointer and arrays-Dynamic memory allocation.

File: Introduction to files- creation and using files-Reading data from files-writing data to files-deleting file-file operations.

'C' - Language Question Paper

MARKS: 50M

TIME: 2 HOURS

SECTION - A

Answer TEN of the following questions:

MARKS: 10X2=20M

1. What is an Algorithm and explain different characteristics of an algorithm?
2. Write an algorithm for Fibonacci series?
3. Write a 'C' program for Biggest of Three numbers?
4. What are the keywords available in C?
6. Explain conditional operator and bitwise operators in 'C'?
7. Explain recursive function in 'C'?
8. Write about Enumerated data types?
9. Explain different file modes in 'C'?
10. Write a 'C' program for Armstrong number?
11. Write difference between structure and union?
12. Explain about sizeof and typedef operators?

SECTION - B

Answer any FOUR of the following questions:

MARKS: 4X4=16M

13. Explain break and continue statements in 'C'?
14. Write about data types in 'C'?
15. Explain various Iterative statements available in C?
16. Explain various types of Programming Languages?
17. Write about Structure of 'C' program?
18. What are the storage classes in C?

SECTION - C

Answer any TWO of the following questions:

MARKS: 2X7=14M

19. Define a string? And explain different String handling functions in C?
20. What is an Array? And explain types of Arrays?
21. Write a C program for swapping of two numbers using Call by Value & Call By Reference?
22. Write about DMA allocation methods?

KEY POINTS

- > The six steps are phase-I composting.
- > Phase-II composting, spawning, casing, planning and cropping
- > These steps are described in their naturally occurring sequence, emphasizing the salient features within each step.
- > Compost provides nutrients needed for mushrooms to grow.
- > The mushroom farm should be closer to the house of the farmer for successful participation and monitoring purpose.
- > Availability of lots water in the farm
- > Easy accessibility to raw materials at competitive prices in the region.
- > Simple access to labour at more affordable prices.
- > Availability of power at competitive prices as electricity is significant input in mushroom cultivation.
- > The farm should be free from industrial pollutants such as chemical fumes.
- > There should be provision for sewage disposal
- > There should be provision for future growth in the farm.

BROCHURE

KEY POINTS

- > Medical Laboratory Technology (MLT) comprises the analysis of the body fluids, including tissues and blood.
- > The students have to perform various analysis like Bacteriology, Chemical and Microscopic haematology etc.,
- > Medical laboratory technician is a job that a person prefers to do when he does not have to travel much, and he has more interest in the field of medicine.
- > Today more than 70% of medical diagnosis carried out by medical laboratory technicians, who are qualified technologists, or technicians.
- > Simultaneously, they need perform microbiological identification pathological identification, to find the affect of humans all these work is done by a medical laboratory technician.
- > It gives students first hand experience and offers better opportunities for learning.
- > It is also based on reports required to treat with the best medical procedures and facilities.
- > In the modern era of medical science, treatment has completely relied on the tests performed in the laboratory.

In the year 2000 the college was upgraded as Post Graduate College and named as Dr. C.S.N. Degrea & P.G. College, in succession M.Sc., Computer Science, Microbiology, Biochemistry, Biotechnology, Electronics, Physics, Organic Chemistry, Analytical Chemistry, M.A., English, M.A. Social Work, M.C.A., M.B.A., B.Pharmacy and D.Ed., were started.

Land was acquired near Industrail Estate which was earmarked for college propose in Municipal Master Plan and Buildings were constructed, consisting of 3 buildings with 3 blocs. Presently the college is functioning with strength of 800 degree and 500 PG students on rolls.

MEDICAL LAB TECHNOLOGY OBJECTIVES

The main objectives of this course are:

The prime concern of this syllabus is to learn the terminology of the subject and basic knowledge of cells & tissues and to understand anatomy of human body. This subject will develop an understanding of the structure and function of organs and organ systems in normal human body.

LEARNING OUTCOMES

Students will develop a vocabulary of appropriate terminology to effectively communicate information related to anatomy and recognize the anatomical structures included in syllabus.

BROCHURE

IMPORTANCE OF BIOINFORMATICS

- ⇒ Today's Bioinformatics is used in a large number of fields such as microbial genome applications, waste cleanup, gene therapy and also used in medicine and agriculture.
- ⇒ Bioinformatics used in drug discovery and disease diagnosis.
- ⇒ It aims to solve biological problems using DNA, amino acid sequences and related information.
- ⇒ Used in analysis of DNA and Protein sequence, structure, location and function.
- ⇒ It plays an important role in plant science and health.
- ⇒ Used in sequence mapping of biomolecules.
- ⇒ Molecular modelling of biomolecules
- ⇒ prediction of functional gene and protein molecules.
- ⇒ Three dimensional (3D) structure modeling
- ⇒ Used in the storage and retrieval of data.
- ⇒ Used in Biometrical analysis for identification and access control for improving crop management, crop production and pest control.
- ⇒ Bioinformatics is mainly used to extract knowledge from biological data through the development of algorithms and software.
- ⇒ Bioinformatics used in Evolutionary studies.
- ⇒ Bioinformatics techniques are used in the effective and efficient designing of vaccine and also in the designing of antimicrobial agents
- ⇒ It is used for pair-wise Genome Comparison.
- ⇒ Bioinformatics are used in the development of automated sequencing techniques that use PCR or BAC based gene amplifications, two dimensional Electrophoresis and also Automated reading of nucleotides.
- ⇒ Bioinformatics are used in joining the sequence of smaller fragments of DNA to form a complete genome sequence.

CERTIFICATE COURSE ON BIOINFORMATICS

CONDUCTED BY
DEPARTMENT OF BIOTECHNOLOGY

COLLEGE PROFILE

Dr. Cheeday Satyanarayana a Paediatrician who served and saved lacks of sick children in West Godavari, East godavari and Krishna Districts for over four decades, developed intrest in promotion of education and got a society registered and promoted "Peoples' Educational Society" in the year 1991. With his contacts in this areas 450 Elite have joined as members of the general body. In the year 1992 Dr. C.S.N. Junior College and Dr. C.S. N. English Medium School were started ast rest house road in the campus of Dr. Cheeday Satyanarayana. In the year 1994 Dr. C.S.N. Degree College was started in the same premises. The College gew strength to strength, year after year and won the apprieciation of the public and students.

In the year 2000 the college was upgraded as Post Graduate College and named as Dr. C.S.N. Degree & P.G. College, in succession M.Sc., Computer Science, Microbiology, Biochemistry, Biotechnology, Electronics, Physics, Organic Chemistry, Analytical Chemistry, M.A., English, M.A. Social Work, M.C.A., M.B.A., B.Pharmacy and D.Ed., were started.

Land was acquired near Industrail Estate which was earmarked for college propose in Municipal Master Plan and Buildings were constructed, consisting of 3 buildings with 3 blocs. Presently the college is functioning with strength of 800 degree and 500 PG students on rolls.

BIOINFORMATICS

Course Objectives

The primary goal of bioinformatics is to increase the understanding of biological process. At focus on developing and applying computationally intensive techniques to achieve this goal. Tool and database development many laboratories generate large volume of data such as genomics and proteomics.

COURSE OUTCOMES

A student completing a major in bioinformatics shall be able to apply knowledge and awareness of the basis principles and concept of biology, computer science and mathematics nesting software effectively to exxtract information from large database and to age this information in computer medalling.

UNIT – I

6 Hours

Fundamentals of bio-informatics: Definition – Bio-informatics in industrial applications importance of bio-informatics. Genomics- types of genomics Linux and Unix for Bio - informatics, basic Unix commands, basic Linux commands wed resources in bio - informatics, bio - computing and bio programming RASMOL.

UNIT – II

6 Hours

Genelysis: introduction to PERL and Bio PERL, Introduction to SQL commands. Applied Bio – informatics; commercial bio informatics Definition for bio- informatics company transcriptome SNP's and their applications.

UNIT – III

6 Hours

Molecular interactions in bio – informatics; biotin to ligand, protein to protein, protein to DNA, protein to RNA, protein to lipid, protein to carbohydrate, DNA sequence analysis; gene finding, non – coding sequence, regulatory sequence finding and analysis drug discovery.

UNIT – IV

6 Hours

Database design & web implementation, data visualization tools and techniques for biological data mining.

UNIT – V

6 Hours

Biostatistics: Definition and applications, measures of central tendency: mean, mode, median. Applications of statistics in health: ratios, rates, trends – vital health statistics: birth and death rates. Simple linear regression analysis and predication correlation in bio statistics.

ASSESSMENT PROCEDURE

CERTIFICATE COURSE ON BIOINFORMATICS

Assessment procedure is adapted to assess the students and their performance by the following methods and ultimately certificates are issued based on their overall performance in the final examination. Assessment is done as per the scheme of distribution of marks. For each paper 50 marks are allotted that includes attendance, assignment, lab activities internal marks, viva voice and final examination as per the following.

S.NO	NAME OF ACTIVITIES	MARKS ALLOTTED
1	Attendance	10
2	Lab activities / Seminars / assignments	5
3	Viva - Voice	5
4	Final Examinations	30
Total		50

BIOINFORMATICS QUESTION PAPERS

TIME: 2 Hours

Max Marks:50

SECTION – A

I. Write about answer any THREE of the following:

10 X 3 = 30

1. Define the bio-informatics and industrial applications?
2. Describe the bio-computing and bio programming by using RASMOL.?
3. Explain in detail about commercial bio-informatics and their companies?
4. Write about molecular interactions and types in bio-informatics?
5. What is the drug discovery and which methods used in drug discovery?
6. How do you design database and web implementation?
7. What is central tendency and measure types of central tendency?
8. Explain in detail simple linear regression analysis and prediction?

SECTION – B

II. Answer any FOUR of the following questions:

4 X 5 = 20

1. Importance of bio-informatics?
2. Unix and Linux commands?
3. Genomics?
4. PERL and BIOPERL?
5. SNP?
6. Gene finding
7. Data visualization
8. Applications of statistics in health.
9. Birth & death rates.
10. Correlation.

English Medium School were started ast rest house road in the campus of Dr. Cheeday Satyanrayana. In the year 1994 Dr. C.S.N. Degree College was started in the same premises. The College gew strength to strength, year after year and won the apprieciation of the public and students.

In the year 2000 the college was upgraded as Post Graduate College and named as Dr. C.S.N. Degree & P.G. College, in succession M.Sc., Computer Science, Microbiology, Biochemistry, Biotechnology, Electronics, Physics, Organic Chemistry, Analytical Chemistry, M.A., English, M.A. Social Work, M.C.A., M.B.A., B.Pharmacy and D.Ed., were started.

Land was acquired near Industrail Estate which was earmarked for college propose in Municipal Master Plan and Buildings were constructed, consisting of 3 buildings with 3 blocs. Presently the college is functioning with strength of 800 degree and 500 PG students on rolls.

C- Language OBJECTIVES

The main objectives of this course are

This course designed to provide complete knowledge of 'C' language. Students will be able to develop logics which will help them to create programs, applications in 'C'. Also by learning the basic programming constructs they can easily switch over to any other programming language in future.

LEARNING OUTCOMES

- > After completion of this course, the students will be able to develop their own applications.
- > Students will demonstrate basic knowledge in fundamentals of programming, Algorithms and programming technologies and fundamentals of computer science.

VALUE ADDED COURSE ON C –LANGUAGE

COURSE OBJECTIVES:

This course designed to provide complete knowledge of 'C' language. Students will be able to develop logics which will help them to create programs, applications in 'C'. Also by learning the basic programming constructs they can easily switch over to any other programming language in future.

LEARNING OUTCOMES:

- After completion of this course, the students will be able to develop their own applications.
- Students will demonstrate basic knowledge in fundamentals of programming, Algorithms and programming technologies and fundamentals of computer science.

COURSE CONTENT:

UNIT – I

Block diagram of a computer -Introduction of programming languages-Algorithm-key features of algorithm-examples-Flowcharts-symbols-examples-structured programming language.

UNIT – II

Introduction to 'C': features-structure of C-writing first 'C' program-variables-identifiers-constants-keywords-data types-I/O statements-Operators-Programming examples.

Control structures: Decision control statements-Branching statements-simple-if, if-else, else-if ladder, Nested-if, switch case-Iterative statements- while, do-while, for –Nested loops- Jumping statements- break, continue, goto, return – example programs.

UNIT – III

Arrays: introduction-declaration- accessing elements of the arrays – types of arrays – array operations- searching and sorting – programs on arrays.

Strings: introduction – declaration- string handling functions.

UNIT – IV

Functions: Introduction-usage-function declaration-function definition-function call-return statement-passing parameters-Recursive function-scope of variables-storage classes.

Structures and Unions: Structure creation-declaration-types of structures-Array of structures-Union creation-declaration-Array of unions-Enumerated datatypes.

UNIT – V

Pointers: Introduction to pointers-declaring pointer variables-pointer expressions-pointer arithmetic-null pointers-pointer and arrays-Dynamic memory allocation.

File: Introduction to files- creation and using files-Reading data from files-writing data to files-deleting file-file operations.

CERTIFICATE COURSE ON C – LANGUAGE

Assessment procedure is adapted to assess the students and their performance by the following methods and ultimately certificates are issued based on their overall performance in the final examination. Assessment is done as per the scheme of distribution of marks. For each paper 50 marks are allotted that includes attendance, assignment, lab activities internal marks, viva voice and final examination as per the following.

S.NO	NAME OF ACTIVITIES	MARKS ALLOTTED
1	Attendance	10
2	Lab activities / Seminars / assignments	5
3	Viva - Voice	5
4	Final Examinations	30

'C' - Language Question Paper

MARKS: 50M

TIME: 2 HOURS

SECTION - A

Answer **TEN** of the following questions:

MARKS: 10X2=20M

1. What is an Algorithm and explain different characteristics of an algorithm?
2. Write an algorithm for Fibonacci series?
3. Write a 'C' program for Biggest of Three numbers?
4. What are the keywords available in C?
6. Explain conditional operator and bitwise operators in 'C'?
7. Explain recursive function in 'C'?
8. Write about Enumerated data types?
9. Explain different file modes in 'C'?
10. Write a 'C' program for Armstrong number?
11. Write difference between structure and union?
12. Explain about sizeof and typedef operators?

SECTION - B

Answer any **FOUR** of the following questions:

MARKS: 4X4=16M

13. Explain break and continue statements in 'C'?
14. Write about data types in 'C'?
15. Explain various Iterative statements available in C?
16. Explain various types of Programming Languages?
17. Write about Structure of 'C' program?
18. What are the storage classes in C?

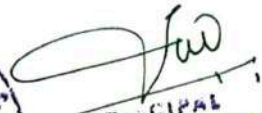

SECTION - C

Answer any **TWO** of the following questions:

MARKS: 2X7=14M

19. Define a string? And explain different String handling functions in C?
20. What is an Array? And explain types of Arrays?
21. Write a C program for swapping of two numbers using Call by Value & Call By Reference?
22. Write about DMA allocation methods?
