Business Communication 2022-2023

Date: 17/11/2022

K.V. Satya Krishna garu gives awareness on Business communications to our students. Business communication is the key to building relationships, coordinating tasks, and achieving goals. Lack of adequate communication can result in misunderstandings that can lead to reduced productivity, missed chances, and impaired relationships. In today's fast-paced business world, effective communication has become more critical than ever, as teams and individuals work remotely and collaborate across multiple locations and time zones. Therefore, it is crucial for businesses to invest in developing and implementing effective communication strategies to ensure their continued success.

Oral communications 2022-2023

Date: 14/12/2022

Mr. Ram kumar sir gave a seminar on Oral communication to the Degree students. He The goals of instruction and practice in oral communication are to help students understand the variables and dynamics of different speaking situations, to develop their ability to make appropriate decisions about communication goals and strategies and to develop their ability to achieve those goals through communication behaviors that are both effective and ethical. students should improve their performance of the following oral communication skills:

- Choosing an appropriate topic, text, or body of information for public presentation
- Designing a spoken message for unity, clarity, coherence, and effect
- Explaining ideas and concepts clearly
- Creating appropriate arguments through critical analysis of topic and audience

Different Analytical Techniques 2021-22

Date: 29/07/2021

Mr. U. R. K. Raju, gave a Seminar on “ **DIFFERENT ANALYTICAL TECHNIQUES** ” on 29th July 2021 to the students of **Life Sciences** Students. He discussed about different analytical techniques like X-Ray Fluorescence technique, GC, HPLC, partition, adsorption, GLC and GSC, etc. He explained about the applications of these techniques. He explained that the XRF is used to determine the elemental composition of inorganic based materials. It is used for bulk chemical analysis on solids and powders. X-rays when they fall on the sample they emit fluorescent X-ray which is characteristic for those elements. He also explained about LCMS and GCMS also and their importance in research and pharmaceutical industry.

Positive Attitude Towards Their well being 2021-22

Date: 06/09/2021

U.R.K. Raju gave an awareness on **Positive Attitude Towards Their well being**. Having a positive attitude means being optimistic about situations, interactions, and yourself. People with positive attitudes remain hopeful and see the best even in difficult situations. Listen to your internal dialogue. When faced with a negative thought, turn it around to make it into a positive thought. Positive thinking has been linked to less stress, better problem-solving skills, and a better sense of well-being all around. Also, studies have shown that positive thinking can increase lifespan, strengthen the immune system, and reduce the risk of developing chronic illnesses

Phonetics & Communication Skills 2021-22

Date: 10/11/2021

Mr. P.Satyanarayana Raju, gave a Seminar on “ **PHONETICS AND COMMUNICATION SKILLS**” on 10th November 2021 to the students of English Students. He started his lecture by explaining all the differences of our Indian variety of English pronunciation and to the standard pronunciation of the natives of America and British. Later he explained International Phonetic Alphabet clearly and given a vast variety of Examples who have poor pronunciation skills to focus on open reading for few weeks and watch the videos of native speakers to enhance their pronunciation.

In the afternoon session which is specified to the faculty member was a great success as the entire faculty enjoyed and appreciated his explanatory skills and the points, he mentioned to up skill in teaching profession. Finally, the lecture was ended in a good round of applause from the participants and ended with a heartfelt vote of thanks.

Yoga and Meditation 2021-22

Date: 05/07/2021

On the mental level, yoga uses breathing techniques (pranayama) and meditation (dhyana) to quiet, clarify and discipline the mind. One should never forget that yoga is not a religion, but a way of living a healthy and peaceful state of mind. Yoga is a mindful movement practice that encompasses stretching, strengthening poses, meditation, and breathing exercises. Yoga uses body, breath, and the senses to reconnect the participant with the universe and move emotions and thoughts into stillness.

Self Defence 2021-22

Date: 27/04/2022

Self-defense is a defense based on justification that allows a defendant to use physical force to protect himself or herself from injury or death. Deadly force is any force that can produce death. An individual does not have to die for the force to be deemed deadly. Self-defense means fighting off something or another person to protect yourself and maybe others. Ways of self-defense include martial arts or using a weapon. Sometimes, self-defense can cause serious harm to the other person. In most nations, you cannot be prosecuted for this harm.

Importance of Cleanliness 2021-22

Date: 21/10/2021

To keep the environment clean, do not engage in littering on the streets or urinating in public rather use a public toilet for sanitation. Cleanliness will help you in taking good care of your own health while also keeping the environment clean. When the environment is clean, we lead a healthy and active lifestyle. Cleanliness is related to hygiene and disease prevention. Washing is one way of achieving physical cleanliness, usually with water and often some kind of soap or detergent. Cleaning procedures are also important in many forms of manufacturing

Health & Hygiene Program 2020-21

Date: 03/11/2020

If a person is in a good physical state and free from any diseases but is under constant stress, greed, tension, anger, etc, then that person is not healthy. Hygiene refers to good practices and rituals that prevent diseases and leads to good health. Practices like keeping the body clean, drinking clean water, washing hands, dumping garbage in the garbage bin, not urinating or defecating in the open, and many more, prevent the spread of many diseases. We know that many diseases spread from vectors like houseflies and mosquitoes.

Using Mask & Sanitation 2020-21

Date: 22/02/2021

The World Health Organization's recommendation of **mask use** also varied from time to time. Wearing face **masks** is recommended as part of personal protective equipment and as a public health measure to prevent the spread of disease. Face **masks** and hand **hygiene** combined may reduce the rate of influenza-like illness and confirmed influenza in community. Basic sanitation is having access to facilities for the safe disposal of human waste (feces and urine), as well as having the ability to maintain hygienic conditions, through services such as garbage collection, industrial/hazardous waste management, and wastewater treatment and disposal.

Awareness Campaign on Personal Health 2020-21

Date: 27/04/2021

A health awareness campaign is marketing designed to educate people about diseases and health hazards, with goals of prevention and encouraging people to take control of their health. A campaign to raise awareness about heart disease and its risk factors among women and educate and motivate them to take action to prevent the disease and control its risk factors. Health campaigns are generally designed both to increase awareness of health threats and to move target audiences to action in support of public health. For example, public health campaigns often encourage target audience members to engage in healthy behaviors that provide resistance to serious health threats.

Inter Personal Skills 2019-2020

Date: 16/09/2019

P. Padmas conduct a seminar on "Inter personal skills" on 16-09-2019. Interpersonal skills are sometimes called employability skills. The word "employability" is a tip-off about the importance of interpersonal skills: they're so crucial that hiring managers really don't want to hire candidates without them. One of the most important interpersonal skills in any job is communication. Whether you work in IT, customer service, construction, or any other industry, you will need to be able to communicate clearly and effectively with others both verbally and in writing. Some jobs also require skills in effective public speaking. Effective verbal communication skills include more than just talking. Verbal communication encompasses both how you deliver messages and how you receive them. Communication is a soft skill, and it's one that is important to every employer.

Idioms 2019-20

Date: 18/11/2019

Rupa Jhansi garu conducted a workshop on Idioms to the students. Idioms are those funny parts of our everyday speech that we use to communicate thoughts, ideas, and feelings without referring to them literally. We understand this hidden meaning through the three layers of reading. Ever said to a friend or co-worker *I'm feeling a bit under the weather today*? That's an idiom. It tells the listener how you're feeling, despite there being no direct mention of illness in the phrase itself. And that's just one example - there are thousands more. In fact, there are thought to be around 25,000 idioms in the English language alone.

MS EXCEL 2019-2020

Date:12/02/2020

Ch. Chakradhar garu conduct a workshop on MS Excel. Excel skills are competencies that are required to work on spreadsheets in a professional capacity. Excel contains a spreadsheet that can automatically input, calculate and analyse data, which makes it a valuable skill for the workplace. Employees can use Excel to accomplish a variety of routine tasks. Since Excel can perform many tasks, potential employers may benefit from viewing detailed descriptions of each Excel skill you possess on your resume.

- Spreadsheet skills can help professionals: Determine, analyse and improve a company's strategic goals
- Calculate a company's or department's budget and profit
- Record data and data entry inputs
- Build a schedule to track significant dates, project instructions or work progress

Team Work 2018-19

Date: 20/03/2019

Mrs. A. Anuradha, conduct a Workshop on "Team Work" on 20th March 2019 to the Computer Science students. She gave suggestions to the Students, how to Improve Team work and Collaboration in the work place and why is Team Work is important in the work place. An executive's role in teamwork is similar in some ways to the manager's role. However, they should be more focused on what's happening behind the scenes. Executives can inspire teamwork through defining the organization's mission, purpose and values. Meet with your team to focus on engagement only. Intersperse team-building activities with questions to get to know your team better.

Awareness on Personal Health 2018-19

Date: 04/12/2018

Dr. Ch. Satyanarayana garu , gave a Awareness Campaign on Personal Health” on 4th December 2018 to the all PG Students. He conduct A health awareness campaign to educate people about diseases and health hazards, with goals of prevention and encouraging people to take control of their health. A campaign to raise awareness about heart disease and its risk factors among women and educate and motivate them to take action to prevent the disease and control its risk factors. Health campaigns are generally designed both to increase awareness of health threats and to move target audiences to action in support of public health. For example, public health campaigns often encourage target audience members to engage in healthy behaviors that provide resistance to serious health threats.
